CIRCUIT & MOMENTUM ACTIVITY — SESSION TABLE

Stock	Move	Recommendation	Reason
HEG Advanced Materials	**+20.0% to Rs 288.79 (upper circuit, 20% band)**	Avoid chasing	Locked at ceiling per MarketsMojo (single source; intraday range Rs 252.00-288.79). 1.94 crore shares traded (194.47 lakh). No catalyst stated; volume vs average unverified. Circuit days suppress volume and exits can be hard.
Scan Steels	**+5.0% to Rs 44.13 (upper circuit, 5% band)**	Avoid chasing	Locked per MarketsMojo (single source); micro-cap (~Rs 261 crore). Same page shows repeated lower circuits on 26, 27 and 30 Oct, so the pattern is erratic. Catalyst: none stated (unverified). Volume vs average unverified.
Onward Technologies	**+5.0% to Rs 366.70 (upper circuit, 5% band)**	Avoid chasing	Locked per MarketsMojo (single source); micro-cap (~Rs 787 crore). Source turnover figure does not reconcile with its share volume (49.58 lakh shares), so treat volume data as unverified. No catalyst stated.
Arshiya	**+4.26% to Rs 0.98 (upper circuit, 5% band)**	Avoid chasing	Locked at Rs 0.98 per MarketsMojo (single source); micro-cap (~Rs 25 crore), sub-Rs 1 price. Source turnover figure is clearly erroneous and is not used. No catalyst stated; extreme illiquidity risk.
Emcure Pharmaceuticals	**+8.16% to Rs 2,137.90**	Watch for follow-through	Source calls it a 10% circuit lock, but its own numbers show the ceiling at Rs 2,174.20 and an intraday high of Rs 2,145.60, so a lock is NOT confirmed. Gap-up open, four straight gains (+14.54%) per source. Catalyst unverified; volume vs average unverified.
Mohite Industries	**Reported +20% lock vs +6.67% in same article; price Rs 2.70**	Avoid chasing	Source is internally inconsistent: neither a 20% nor 5% band fits Rs 2.70. Treat the circuit claim as unverified. Micro-cap; no catalyst stated.
Bharat Electronics (Nifty 50)	**+4.71% (+Rs 17.90)**	Watch for follow-through	Top Nifty 50 gainer on 4 Nov in a realty and defence-led rally (Upstox, HDFC Sky agree on +4.71%). Not a circuit name. Specific catalyst not verified.
Titan Company (Nifty 50)	**+4.22% to Rs 4,754.40**	Monitor for confirmation	Third-largest Nifty 50 gainer per HDFC Sky and Upstox. Catalyst not verified in this run.
Adani Enterprises (Nifty 50)	**+4.47% to Rs 2,709.20**	Monitor for confirmation	Among top Nifty 50 gainers; consistent across both sources. Catalyst not verified.
TCS (Nifty 50)	**-2.52% to Rs 2,436.00**	Wait for stabilization	Largest Nifty 50 loser; Nifty IT fell about 1.5%, the only sectoral decliner. Reason for IT selling not verified in this run.
HCL Technologies (Nifty 50)	**-2.37% to Rs 1,405.00**	Wait for stabilization	Sector-wide IT weakness (Infosys -1.73% as well). Specific trigger unverified.

DATA VERIFICATION NOTES

- Circuit-lock status for the six small names rests on a single source (MarketsMojo, 4 Nov 2026) and could not be cross-checked against NSE/BSE circuit lists, which were not retrievable. Treat each as reported, not confirmed.
- MarketsMojo pages contained unrendered template fields and several internal errors (turnover figures off by roughly 100x for Arshiya and Onward; Mohite market cap shown as zero; sector labels in promo text contradicting article text). Only figures that reconcile were used.
- Volume multiples versus average volume: unverified for every stock - none of the sources provided a usable average-volume figure.
- Catalysts: none stated by any source for the circuit names. No catalyst has been assumed or inferred.
- Emcure: source headline says upper-circuit lock, but intraday high (Rs 2,145.60) was below the stated ceiling (Rs 2,174.20). Reported as a strong gain, not a lock.
- Mohite Industries: 20% lock claim conflicts with the 6.67% day gain in the same article. Included only as a flagged, unresolved item.
- Bharat Electronics price not stated cleanly by the source ticker; only the +4.71% / +Rs 17.90 move is shown.
- FII/DII flows for 4 Nov were not available; the sources quoted only the previous (3 Nov) FPI buying of about Rs 6,837 crore. Not used as a 4 Nov figure.
- India VIX, Bank Nifty and fresh 52-week high/low lists for the session could not be verified and are omitted rather than estimated.
- Judgment calls (unattended run): 4 Nov 2026 confirmed as a normal trading session; Nifty 50 large-cap movers were added to give momentum context because few confirmed circuit names were available; the add_repo tool was not exposed in this run, but the repo was already cloned in the workspace so it was used directly.
