DATA VERIFICATION NOTES

- No confirmed lower-circuit locks were found for 9 Nov 2026; the IIFL BSE circuit page (timestamp 9:12 PM IST) showed no records in either table.
- Upper-circuit rows (K.P. Energy, Makers Laboratories, POCL Enterprises, Aarti Drugs, Spacenet) come from a single IIFL NSE snapshot stamped 9:09 PM IST. The page does not show volume or catalysts, and it contradicts the empty BSE page, so they are

UNVERIFIED and not confirmed circuit locks.

- Aarti Drugs price conflict: IIFL Rs.499.75 versus an undated Screener list at Rs.397.30. Not reconciled.
- The 5paisa and DSIJ circuit lists and a Google News feed could not be fetched (permission errors in this unattended run), so no second-source cross-check was possible for small caps. No 52-week-high or volume-multiple data was obtainable; none is stated.
- Nifty 50 prices come from the HDFC Sky ticker strip, which does not label them as closes; they match the percentage moves in the article text. Percentage moves for SBI, Tata Steel and HCL Tech match across the article and ticker. Business Standard and Kotak Neo agree on index closes and sector direction but give no stock prices. PSU Bank gain is +3.7% per HDFC Sky and Kotak Neo, ~3% in the BS headline.
- Data Patterns (about +9% after Q2 results) is a headline-only mention; nothing else about it was verified.
- Judgment calls: Nifty 50 movers were included to give verified context, since confirmed circuit data was limited; unverified small-cap names are labelled as such and default to 'avoid chasing'. All recommendations are hedged; none is a buy or sell call.
