DATA VERIFICATION NOTES

• Index closes (Sensex 73,246.03; Nifty 22,698.85) confirmed by HDFC Sky and Kotak Neo. 5paisa's post-market page prints Sensex as 72,246.03 - treated as a typo. An India TV pre-open article quotes different previous closes; not used.
• Circuit-list sources (HDFC Sky price-band page, INDmoney list) are intraday snapshots (12:00 PM and 1:13 PM IST), not closing data. Rows built on them say so; closing price and lock status are unverified.
• MarketsMojo supplied lock status and volumes for MTAR, Sigma, IL&FS Engg, Digjam, Polysil, Media Matrix, AKI and Antarctica; it was the only source for each and contains internal inconsistencies (flagged in rows). MTAR price: Rs 6,915 (body) vs Rs 7,079 (summary) - unresolved.
• 5paisa's 28 Oct upper-circuit list could not be fetched; the names MTAR and Sigma were cross-checked via HDFC Sky. Other names on that list are not covered.
• Volume multiples vs average: not stated by any source; none estimated. Catalysts: none stated by sources for any row; none inferred.
• India VIX, FII/DII (28 Oct), PCR: n/a - not found. Brent quoted USD 110.71 (Kotak, 15:35) and above USD 115 (HDFC Sky/5paisa); different timestamps. Jio close unverified.
• Judgment calls (unattended run): small/micro-cap locks with under 1 lakh shares traded were included because they are genuine confirmed locks but are flagged illiquid; no recommendation is a buy or sell.
