DATA VERIFICATION NOTES

- Sources: HDFC Sky, IIFL, Bombay Samachar and Kotak Neo close reports (30 Oct); IIFL upper/lower circuits page (30 Oct, 9:07 PM IST snapshot); INDmoney lower-circuit, 52-week-high and 52-week-low pages (stamped 30 Oct, 4:01 PM IST).
- INDmoney's upper-circuit page was stamped 29 Oct 2026, so it was excluded. The 5paisa list for 30 Oct could not be fetched. IIFL's lower-circuit table was not extracted.
- Upper-circuit list rests on a single source (IIFL). Borosil, Marsons and Annapurna are not exactly at a 20% move, so their lock status is unverified.
- Circuit band percentages are inferred from the % move, not published. Volume vs average could not be computed (only raw volume given), and catalysts were not verified except where stated. Rows say so.
- 52-week high/low lists cover only the top 12 names each; more may exist.
- Index levels are consistent across four reports. One IIFL item had a prior-day Sensex/Nifty that does not reconcile with today's change; the close levels are used as reported and prior closes are not shown.
- India VIX and 30 Oct FII/DII flows: n/a. Midcap/Sector percentages differ slightly between sources; IIFL figures are used.
- Judgment calls (unattended run): table limited to confirmed or sourced names; all circuit-locked names default to 'avoid chasing'; run time was 21:10 IST, later than the 21:00 schedule.
- Sources can be delayed or revised; verify before acting.
